

Babylon has Fallen

Who you gonna worship God or man
These are the last days baby
Better take a stand
There ain't no middle ground in these final rounds
Your either battling for God
Or getting shut down
Death sin and pain
Will no longer reign
Read God word because He makes it plain
God's gonna end this Great Controversy
And His judgements on this world
Friend
Is filled of mercy
He's coming for those who for His love is thirsty
And those who follow Him
He will break the curse B
I just want to roll with Him I don't need to be first G

Babylon is fallen
Get outta here
Those who love the truth
God says Draw near

Babylon's confusion
The truth is clear
Your on the road to destruction
Your end is near

Babylon is fallen
Let's make it clear
Those who love the truth
God says Draw near

Some don't want to see
Some don't want to hear
Cause they don't want to change
They'd rather live in fear

The road of tradition is filled with holes
That claim to lead to truth
Yet destroys your soul
They're painting pictures that seem to glisten
But
It's pure death if Yahweh is missing-Yep

This world has to drink the wrath that's in God cup
His wrath is His judgement
Check your conduct

Babylon is fallen
Get outta here
Those who love the truth
God says Draw near

Babylon's confusion
The truth is clear
Your on the road to destruction
Your end is near

Babylon is fallen
Let's make it clear
Those who love the truth
God says Draw near

Some don't want to see
Some don't want to hear
Cause they don't want to change
They'd rather live in fear

Darkness and Death is called light
Error and lies you call right
The blind lead the blind you call sight
The human mind enlightened-yeah right
It's more like a moonless midnight
Recite – 2x

Destruction
Comes to many sugar coated
Taylor made
Like a freshly dug grave

Lies
Sprinkled with truth
The road paved
The truth hooked you
Error made you a slave

You gotta be brave just to break the yoke
To walk in the light of the truth God spoke

Babylon is fallen

Get outta here
Those who love the truth
God says Draw near

Babylon's confusion
The truth is clear
Your on the road to destruction
Your end is near

Babylon is fallen
Let's make it clear
Those who love the truth
God says Draw near

Some don't want to see
Some don't want to hear
Cause they don't want to change
They'd rather live in fear

I don't confess to an earthly priest
Cause that's beast
Not Biblical in the least
No salvation or peace
Open your eyes
God wants you to see
That you're dabbling in Paganized Christianity
Insanity
Unclean beast
They feast
On your youth eat them raw
Make war
And shout peace
It's no joke
Death was heavy on that levee
If your worshipping material
Your gonna get buried
Commandments
You gotta keep all 10
If not you and your church will get sucked in
To the plagues that will hits all world nations
Some are sealed for life
Others condemnation.

Babylon is fallen
Get outta here
Those who love the truth

God says Draw near

Babylon's confusion
The truth is clear
Your on the road to destruction
Your end is near

Babylon is fallen
Let's make it clear
Those who love the truth
God says Draw near

Some don't want to see
Some don't want to hear
Cause they don't want to change
They'd rather live in fear 2x
