

## Brethern (God's calling you to life)

You're rappin' death over beats man  
Destroying your own for ends meet man  
But the ends that meet man  
Will lead to your own defeat man  
And as the darkness creeps man  
Material puts you sleep man  
And if sleep is a death  
Then your dead  
Check the flows from the head  
Dead flows pierce minds like hot lead  
There ain't a trace of life in these songs we're fed  
Corporate pimps  
Strut you out like hoes  
Even more so than the honeys you use in your videos

Chorus  
Brethern  
God's calling you to life  
Brethern  
Stand-up for what's right  
Brethren  
Reach for new heights  
Brethern  
Much more than a physical fight  
Bretheren-It's a war-it's a spiritual plight  
Brethern- walk out of the darkness into His light  
Brethern- My, My Brethern- Cause God's gonna the fight

Fame and Riches  
God's not impressed with non of that  
Infact  
He said  
Through rap  
Spit Holy Fire at  
These cats who sold crack  
Turned the hood out  
And got out  
And they push lyrics that still eat folks minds out  
You owe God something more  
You're on the wrong side of this war  
Our youth are at a loss man  
Check the score  
It's no time play game man

It's time for war

Corporations use your poisonous influence  
to rape mindscapes and create more trances  
Your talent is big  
Your thoughts are pig (Unclean)  
For money you fiend  
Your soul is demeaned

Chorus

Brethern  
God's calling you to life  
Brethern  
Stand-up for what's right  
Brethren  
Reach for new heights  
Brethern  
Much more than a physical fight  
Brethern-It's a war-it's a spiritual plight  
Brethern- walk out of the darkness into His light  
Brethern- My, My Brethern- Cause God's gonna the fight

It's cruel-

They use you as a self-destructive tool  
My Brethern  
They got you out there  
Looking like fools  
As you idolize lies  
The true image of manhood in a child's eyes dies  
You're on your grind  
You're working you hustle  
But the image that you hustle  
Undermines the struggle  
I turned my eyes towards God  
The spiritual  
Cause it's God  
That purifies each individual  
You're dwelling gutter crab-like  
Bottom feeders  
Destroying the young minds of our future leaders  
You're part of the design  
That undermines  
The divine  
In the minds of our black skins  
And these are your kins

And you know that's a sin  
But God says you can be forgiven  
Rise up and stand up like men  
And step out of that pit your in.

Sing

I know manhood has not been taught

I know thing ain't all your fault

I know you're dealing the best you can

The effects of slavery crushed many a man

I know you're scarred from this war you're in

I know you're angry and wanna sin

God's on your side

He wants you to win

He'll help you transition from boys to men

I know you feel misunderstood

I know your hurt and it ain't all good

I know you can't even trust your own

Folks all around

Yet you feel alone

I know that pain you feel inside

That deep black rage

That you try to hide

I know that thing when it all collides

The child inside that's when it dies

Eyes try to mask the pain

On the edge of insane

Shell shocked from years of pain

God can lead all of you back to what's sane

(Sing last stanza over chorus)
