

Lord I love You

For everything
You brought me through
Lord I gotta say that I'm lovin you
Even before I pray the things you do
You're working in my life making your words true
Who besides the true Holy infinite
Can clean up your soul
Make you legit
Reformat the script
Reverse the hurt
I ain't do a thing
You did all the work
When my life was a mess Lord
You blessed
When I couldn't find rest Lord
You blessed
When I didn't pass the test Lord
You blessed
Full of sin I confess Lord
God bless

(Chorus)

Lord-I love you
Lord-I love you – 2x

Lord I love you
Praise your name
Before the whole world
Yes I do proclaim
You're the only true God
There's no higher name
Yahweh
Jesus-the Christ
Emmanuel
Your can never fail
With you in the lead
We will succeed
You even sweeten the air that we breath
Help us Father to always believe

Thanks for breath
For life
For wife
Children
Your gifts given me
Holy communion
And grace that's free
Spiritual eyesight to help me see
This great controversy clearly
For giving assurance that you're with me
For totally and wholly strengthening me
Wherever I be
You make me free

Chorus- 2x

Lord I love ya (echo)
Praise Your Name (echo)
Before the whole world (echo)
I do proclaim (echo)
You're the only true God (echo)
There's no higher name (echo)
Emmanuel (echo)
You can never fail (echo)

Without you Lord
Where would I be
I don't know
But I wouldn't be free
Standing on the edge of insanity
Destroying myself and everything around me
Not being who you meant me to be
Being blind to things you wanted me to see
Every question I asked
You answered me
When I called out in pain
You heard my plea
Lord, I'm unworthy
Stand before you humbly
And my words are
Not enough
To explain
How you hold me
Mold me
Remade me
Love me

Saved me
And you gave me
The will
To surrender my will
And it's real
Stand for the truth
Not what you feel
Because His whole goal
To reconnect the sinner up to His soul
His soul
Meaning His life
God's life
Is the high light
That spot light
That re-adjust your eyesight
In the dark night
And I'm contrite
Cause everything you pointed out is so right
I'm humbled and repentant
You took away my Death sentence
(sing) No other could do that for me
Its takes a Holy God to make you free

Chorus

Lord I love ya (echo)
Praise Your Name (echo)
Before the whole world (echo)
I do proclaim (echo)
You're the only true God (echo)
There's no higher name (echo)
Emmanuel (echo)
You can never fail (echo)
