

My God

This world ain't last much longer
Wickedness is getting stronger
But God got a plan for that
Satan gonna burn for that
My God is in control
Dust and His breath form the living soul
Thus I gotta give Him praise
Cause I am always amazed with my God

My God 8x

This world is not my home
By myself but never alone
And I thank God for that
The Great I am has got my back
I move through this world
Fearing no man
No machine
No pagan
So I stand on His promises
Faith in God's word is how I live
He gave me the power of love
Not fear
To spread love
Through out the atmosphere
To preach His truth and make it clear
To remind His people
His return is near

MY God 8x

There are still youth out here
Who love your Name
Who await Your return
Who speak Your flame

Who understand this life is not a game
Who praise Your Name
And who are not ashamed
Of these truths we speak
And we rise with each
Out of this spiritual grave
I'm no longer a slave
To death, sin and murder
I believe every word of Biblos
God inspirited every verse
Every miracle
Every lyrical
Every event
Prayer
Is critical
To the individual
We speak this fire
We will not retire
Until the God of Fire
Comes to take us higher

Hair
White wool
Skin
Like brass
Eyes are aflame
I shout Your Name Yahweh
Your way is the only way
Burst those clouds
And come and save the day-

MY GOD 8x

They don't wanna hear
The truth that's clear

They don't wanna hear
The end is near

They don't wanna hear

What God expects

They don't even care what's in the text

They just wanna worship cash and sex

Drive a lex

Bag baggets

They don't wanna know

Who they really are

They'd would rather die just as they are-2x

Let's be clear

This world is dying

Crying

Sighing

The deeds of man may seem unchecked

But every soul will account for what they wrecked

Good deeds done

For disrespecting the Son

Standfirm until the day he comes

Money can't save you

Step out of your grave

If you believe that

Then your still a slave

MY GOD!

(Repeat last stanza over chorus)
