Out Here

Ain't nobody smilin' out here
People just wildin' out here
Cops are mad violent out here
It's life or death struggles out here
Some folks need muzzles out here
Human animals getting high off fear
It's raw-dog out here
Kids shaky dog out here
It's Sodom and Gomorrah out here
Blind men can see
It's hellish horror out here
Your tomorrow out here
Maybe filled with pain and sorrow out here
But Yahweh can make it clear
The end is near
I walk these streets hard
Fearin' no man cause I roll with God
A thug?
Not me
I'm just liftin' up the Lord so these streets can see
A man of God struggle for righteousness
Speak the plain truth
Yo we fight for this!

(chorus)

This is not God's plan that you see out here
Out here
Out here

This is the consequence of sin that you see
Out here
Out here

This is spiritual warfare that you see
Out here
Out here

God's gotta destroy everything that you see
Out here
Out here

Everything wrong is right?
That's dark light
That' like believing God's skin is snow white
And blond hair
That's a lie right there
Infact it's satanic
Many gonna panic
But the lies of racism must sink like the Titanic
We'll dismiss the myth
And we'll rock for truth
And expose the war that's coming at the youth
There is no fear in true love
There is no pain or sorrow in the things above
There is death in this place
And death in your face
It was never God's plan for man to live base
We were meant
To live Holy with the Divine
Holy spiritually
Uplifted mind
But the crime is that with foolish your fine
But God can change the odd
The strange
The perverse
The deranged
The hateful
The untamed
And those with thoughts uglier than the mange

(Chorus)

This is not God's plan that you see out here
Out here
Out here

This is the consequence of sin that you see
Out here
Out here

This is spiritual warfare that you see
Out here
Out here

God's gotta destroy everything that you see
Out here
Out here

(Chant)

Out here-4x

Some

Understand the social and political reasons

But fact that you ain't getting' it amounts to treason

Black man

For you God wanted something more

But some are fine with just playing the worlds whore

Worshipping money like it's some type of cure

This is out of love so I gotta get raw

You will never be seen as a man

Until you understand a real man

Walks by God's plan

Family listen

To teach the world about God was first your mission

This time let's get it right

Lean on the God of light

In truth you'll win the fight

Oh Lord....Save us from ourselves!!!

(Chorus)

This is not God's plan that you see out here

Out here

Out here

This is the consequence of sin that you see

Out here

Out here

This is spiritual warfare that you see

Out here

Out here

God's gotta destroy everything that you see

Out here

Out here

This is not sanity that you see

Out here

Out here

This is the fall of humanity that you see

Out here

Out here

Oh Lord!!!!

Save us from ourselves!!!
