

## Refuge

With God as my refuge  
I shall not lose  
My high tower  
That's why I speak with power  
I got 3 Gods  
That work as one  
I got the Father  
The Holy Spirit  
And His only Son  
That's why the job gets done  
With no fear hon'  
I roll with a force that's all of heaven  
I got that Holy Sabbath rest  
And it's number seven  
Like Elijah  
You can't alarm me  
Father open up their eyes  
Let them see the army  
Let them see  
Who I'm with  
When they come to harm me  
It's no joke  
Baby my God is Hope  
To a world in pain  
That's spiritually broke  
Like Jeremiah  
There's fire in my bones  
And it won't come out  
Won't leave me a lone  
And I'll spit that fire  
Until I retire  
Which is never  
That a cord that only God can sever

If you love God Let me hear you say Yeah!  
If God is your High tower  
Your power  
Say Yeah!

Say it with me

Chorus

He's my refuge  
I shall not lose  
But there's just one thing hon'  
You have to choose  
No-you should not snooze  
There's too much to lose  
You were given this life  
To get life

(He's my refuge)

Yea though I walk through the valley of death  
God's by my side  
He sustaineth my breath  
Eyes on the Lord  
Not looking right nor left  
Started with a crew  
But only few are left  
Test will come  
But me not fear none  
I may go through some pain  
But let me make this plain  
This world can't do me nothing  
You'll get your comuppins  
Thus I stand on a plane  
Where Christ does reign  
If you in the dirt  
He'll come get ya  
If you broke  
He'll fix ya  
You need work  
He'll work with ya  
Get the picture  
He'll deliver  
No ones bigger  
Than His figure  
I done figured out  
I believe God's word  
Without question or doubt  
Follow His footsteps  
Travel His route  
God so good  
Make me want to shout  
Ohh!  
I stand on the rock

Cause the rock said so  
I grabbed the hem of His garment  
And I will not let go

Chorus- 2x  
He's my refuge  
I shall not lose  
But there's just one thing hon'  
You have to choose  
No-you should not snooze  
There's too much to lose

Ad-lib

You can keep your idols  
You can have them all  
Listen up people  
It's that Gospel Call  
Watch out  
People going insane  
Come together all saints  
Here comes that latter day rain

He's the God that can make you strong  
God can make the whole sun stand still  
So you can fight on  
And the Heavens  
They all declare His name  
And He's surrounded by His glory  
And His glory is flame  
He's my refuge  
My God is Huge  
He's my Father  
The God of Love  
He's the Judge  
And Jury  
Salvation's Fury  
He is the God that defends His own  
He is mountain  
I'm hewed out that mountain  
Thus I'm a stone  
I love my Father  
He's all I got  
He's the Loin of Judah  
Yahweh  
The rock

He's my Refuge

Chorus-2x
